Results

```
realm.objects(Task)
    .filter("created > %@", NSDate(timeIntervalSinceNow: -3600))
    .sorted("priority", ascending: false)
```

realm.io/news/nspredicate-cheatsheet/

List

- mutable collections
- can be pre-sorted
- doesn't cost much to create
- extras like min(), max(), average()

LinkingObjects

```
let users = LinkingObjects(fromType: Task.self,
                           property: "currentTask")
```

Demo: Add Results, List
